

ENICPA Staff Exchange

Sari Havukainen 12-16 March 2018 at Theatre Institute in Warsaw

The Theatre Institute (Instytut Teatralny im. Zbigniewa Raszewskiego) in Warsaw has a great range of activities: documentation and statistics, international projects, library, communications, Polish Theatre Journal, digital portal called e-teatr.pl, theatre education, bookstore, in house black box with programme produced by different institutions and Instytut Teatralny. I had a nice possibility to see how this unique organization run by Dorota Buchwald is operating.

As a communications manager at Theatre Info Finland, I took a chance to find out how communications team works in Warsaw Theatre Institute. Also as a planner for TINFO's digital services I wanted to meet Institute's people who is making an invincible web portal called e-teatr.pl. I had a good chat with my colleague communication manager Lukasz Orłowski, as well as Edyta Zielnik and Krystyna Mogilnicka, the duo in international projects, and editor for theatre portal e-teatr.pl Danuta Labijak.

Five editors at e-teatr.pl are working to offer press reviews freshly, a calendar of the premieres and upcoming festivals, the performance archive and a catalogue of theatre people. E-teatr has 60 000 subscribed users.
